

WARRANTY SURVEY SERVICES

Global Maritime has been engaged as warranty surveyors on a significant number of major projects in recent years. We have acted on behalf of underwriters on projects involving production semi-submersibles, TLPs, SPARs, steel jackets, concrete structures, modular and integrated decks, towed pipeline bundles, pipelines, subsea installations and FPSOs. The **engineering expertise** and **practical experience** of our staff allow us to assist projects to a safe and timely completion.
